Tuk Tuk
ASIAN BISTRO

Tuk Tuk Bistro began
in William Street Newtownards
in May 2016

Originally the plan was to open a coffee shop & offer an Asian Bistro a few nights a week but the bistro was so popular that it soon took over the coffee shop full time. In September of 2017 we opened in Main Street of Greyabbey and in early 2020 we opened the Bangor Restaurant. Unfortunately the Greyabbey branch fell victim to Covid.

Our ethos has always been to offer freshly cooked meals just like my mum made. I was born and grew up in Malaysia and all my cooking experience has been learned from my parents and extended family. Therefore they are not restaurant recipes but just as we cook at home for the family. At home we use neither additives, MSG, preservatives nor flavour enhancers, so why would I use them when I cook for you? My mum still goes to the market everyday and buys only what she is proud to serve to her family. So I insist we do the same at Tuk Tuk.

At home there is always fresh rice in the steamer but no main courses precooked. They are cooked fresh for each meal. The downside of this is that when cooking for large numbers the meals will not arrive to the table together as they do in other restaurants where they precook their ingredients, entire meals, or even simply reheat them.

Just like at home, in Tuk Tuk each chef concentrates on one dish at a time to ensure it is the best that it can be for the family. Your patience for this is very much appreciated and we believe you will taste the difference.

When I go home I cook for my family,
in Tuk Tuk we just have a bigger family

Thai and Malaysian Dishes are often more healthy than Chinese food.
They are light, with the aroma being as important as the taste.
They also use less heavy sauces + oils than Chinese food with more fresh ingredients. All our dishes are cooked from scratch so we don't need to give you a 'special menu' for gluten free, vegan or vegetarian, nut free etc.

You just need to tell us how you would like it cooked!
